AUTENTIC

Welcome to a world where extraordinary structures take shape, redefining how we live, travel, and gather.

AMA unites sustainable innovation with bold design for Real Estate, Tourism, and Events. We design, manufacture and install amazing structures that adapt seamlessly to their surroundings: resilient, versatile, and breathtaking. Rapid deployment, limitless customisation, and a new era of flexibility and sustainability.

We are revolutionising the way people envision and experience spaces:

EURODOME - Ephemeral Architecture & Immersive Structures

GLAMPING REVOLUTION - Permanent Modular Architecture for Outdoor Living

AUTENTIC – Professional Bell Tents for Outdoor Hospitality

AUTENTIC

Premium Glamping Tents

Autentic tents for unforgettable outdoor stays that rival the comfort of a guestroom or a luxurious hotel suite.

Because that's what Autentic is about: providing authentic experiences and reconnecting you with the beauty of nature.

AUTENTIC

WHY CHOOSE AUTENTIC

OUR STRENGTHS

We at Autentic have redesigned and remastered the bell tent, seamlessly blending the finest performance, optimal functionality, and timeless beauty.

EASY SETUP

Set up in only 30 - 120 minutes, depending on the size of your tent.

WIND RESISTANCE

Up to 80 km/h for larger and 90 km/h for the smaller models.

FLEXIBLE SETUP

Possible to set up on grass or a wooden deck.

COLOUR STABILITY

Our tent materials have optimised colour stability. New and unique in the market: Wottex™ Pro, with colour stability for at least 5 years.

ACCESSORIES

Tents can be customised with Inner Liners, multifunctional Window Panels, Short Guy Poles and seversl other tent accessories.

ULTIMATE VERSATILITY

Tents can be set up as a standalone unit or integrated into a larger project, including HVAC, sanitary facilities, and interior features.

TAILORED TO YOUR PROJECT

Based on your concept, requirements, and project type, our team will guide you in selecting the most suitable tent model from our range, all made with our high-quality Wottex™ Pro fabric.

WATER RESISTANT

Exceptional water resistance, ensuring a dry and comfortable shelter.

MILDEW RESISTANT

Resistant to mildew when properly maintained.

UV RESISTANT

Fabric are treated for UV colour fastness, with Wottex™ Pro showcasing unmatched colour fastness for at least 5 years..

FABRIC OVERVIEW

	WOTTEX™ PRO
FABRIC	Acrylic 290 gsm (walls) 320 gsm (roof)
CHARACTERISTICS	• Water resistant • Acrylic material: mildew and rot free • Excellent colour fastness • Breathable
EXPECTED LIFETIME*	5 years with: • Perfect colour stability • No loss in fabric performance • Various cleaning options
RECOMMENDED USE	• Projects • Longer time setups • All climates, including tropical and humid regions

All Autentic fabrics have undergone rigorous treatment and testing to ensure resistance to water, mold and UV. The colour stability of the tent fabric can be influenced by different factors, which can either accelerate or slow down colour fading. These factors include sunlight exposure, radiation strength, setup location (whether on grass or near water), air pollution, and duration of setup.

More info on autentic.world.

WOTTEX™ PRO

Autentic stands alone as the exclusive supplier of glamping bell tents featuring premium acrylic fabric. The Wottex™ Pro fabric has been carefully selected by Autentic and ensures exceptional performance in all climates, even the most hot and humid, while maintaining remarkable colour stability. This fabric is easy to clean and maintain with Autentic's recommended cleaning products.

BELL TENT ADD-ONS

BELL TENT ADD-ONS

Tailored to meet your specific needs, these accessories are carefully designed to enhance your overall glamping experience.

INNER LINER

The Inner Liners are suspended from the roof along the inside of the tent, helping to regulate the temperature inside. Besides being functional, the Inner Liner creates a luxurious, warm and cozy feeling inside the tent. Inner Liners are available for the Jack Bell 5.2 and Jay Bell 4.4.

The Inner Liner for the Billy-Joe Double Bell 7.2 is attached with velcro to the walls, functioning as an Air Cushion and also comes with four dividers, offering the flexibility to create multiple rooms as desired.

MATERIAL
Fire Retardant Trevira

PACKING

BILLY-JOE DOUBLE BELL 7.2	Trevira: 65 x 36 x 36 cm | 14 kg
JACK BELL 5.2	Trevira: 57 x 24 x 24 cm | 7.5 kg
JAY BELL 4.4	Trevira: 53 x 30 x 16 cm | 5.5 kg

COLOUR

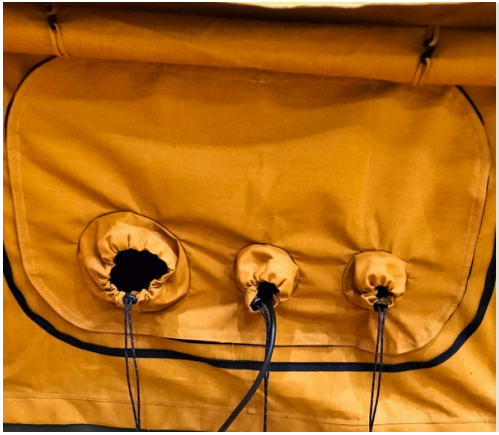

WINDOW PANELS

Each Autentic Bell Tent is equipped with multiple windows featuring sturdy mosquito mesh, providing excellent ventilation while keeping insects out. On the Billy-Joe Double Bell 7.2, Jack Bell 5.2 and Jay Bell 4.4, the front and side windows can be easily removed and replaced with alternative panels, allowing you to adapt your bell tent to suit your needs.

The larger windows can be replaced with Transparent Panels, allowing more natural light into the bell tent while maintaining protection from the wind. The smaller mosquito-mesh windows can be replaced with a canvas Technical Panel, featuring three practical openings for routing cables and other devices in and out of the bell tent. This flexible panel system offers a simple and practical way to customise your bell tent for different setups and requirements.

	TRANSPARENT PANEL (SET OF 2)	TECHNICAL PANEL
MATERIAL	Transparent PVC	Canvas material
SUITED FOR	Front window	Side window
AVAILABLE FOR	Jay Bell 4.4 Jack Bell 5.2 Billy-Joe Double Bell 7.2	Jay Bell 4.4 Jack Bell 5.2 Billy-Joe Double Bell 7.2
PACKING	14.5 x 15 x 88 cm 1 kg	14.5 x 15 x 88 cm 1 kg

TENSIONING SET

The Tensioning Set replaces the longest front guyline by connecting the centre pole to the top of the A-frame at the entrance, creating internal tension that helps maintain the tent's shape.

The system provides a cleaner, more accessible entrance while reducing the tent's external footprint.

MATERIALS
Aluminium & Steel

SUITED FOR
Jack Bell 5.2

PACKING
95 x 18 x 10 cm
3 kg

CENTER POLE PLATE

This Center Pole plate has a diameter of 18 cm and can be easily slid under the center pole of the bell tent. It spreads the pressure of the center pole over a larger surface, reducing the chance of damaging the bell tent's groundsheet.

MATERIALS
Steel

DIMENSIONS

WOODEN TENSIONING POLES

Crafted from treated natural wood, our custom-designed Wooden Poles combine functionality with a refined, natural look. Available as Short Guy Poles and Door Poles, they add an elegant touch to any bell tent while helping to optimise the space required for setup.

The Short Guy Poles ensure perfect tensioning of the bell tent while minimising its setup footprint. The Door Poles provide a practical and elegant solution for supporting and tensioning the entrance.

Available for the Jay Bell 4.4, Jack Bell 5.2 and Billy-Joe Double Bell 7.2.

We don’t just supply a large range of Glamping Structures.

We build Glamping Destinations.

Learn more about the companies in the group.

EURODOME - EPHEMERAL MODULAR ARCHITECTURE FOR INNOVATION IN THE EVENT INDUSTRY

Founded in 2008, Eurodome has brought thousands of open-air events to life, from vibrant festivals to bold brand activations and immersive fulldome experiences. We design and build turnkey event structures that are fully customizable, produced in-house in Portugal, and powered by our commitment to sustainability, innovation, and creativity.
Operating from Lisbon and Madrid and building across Europe and the Middle East, Eurodome delivers complete end-to-end solutions from concept to completion. Every project is designed to inspire, engage, and leave a lasting impression.

FULLDOME

- 360 degree video projection in a dome
- Portable, efficient, scalable for any venue
- Cutting-edge technology
- Fully immersive experiences
- Virtual reality
- Interactive solutions
- Maximises engagement & memorability
- Largest itinerant FullDome in Europe
- Short and long-term rentals
- Unique WOW factor

FESTIVAL

- Complete end-to-end festival build service
- Creative transformation of any space
- Customisable designs for all areas aligned with the festival's visual identity
- Large-scale structures engineered for safety, durability and all-weather performance
- Pop-up glamping accommodation in premium tents; hot showers; beauty & wellness solutions
- Proven track record: trusted by top festivals and event producers across Europe

ACTIVATION

- Brand activation solutions
- Striking pop-up structures
- Designed for impact and high-visibility
- Fully customisable interiors & exteriors
- Rapid setup and removal for short-term activations and roadshows
- Mobile & Modular, easy to transport and adapt to different locations
- Turn-key service from concept, design, build, technical support and logistics

GLAMPING REVOLUTION - PERMANENT MODULAR ARCHITECTURE REVOLUTIONISING OUTDOOR LIVING

Founded in 2017, the Glamping Revolution was created with a clear mission: to bring people back outdoors.
We design, manufacture, and install innovative structures for sustainable outdoor living, combining comfort with a deep respect for the environment. True to our name, we stand for meaningful change: a revolution in the way people experience spaces.
From concept development and design to manufacturing, on-site construction, and maintenance, we deliver turn-key fully customised projects. We build glamping projects of small and large dimensions and have all the solutions you need to create your project from scratch.

SLEEP

- Cosy shelters for restful nights
- Seasonal modular solutions
- Easy to assemble and dismantle
- Premium Comfort in any location
- Perfect for festivals, retreats and pop-up accommodation
- Available for rental in Portugal and Spain

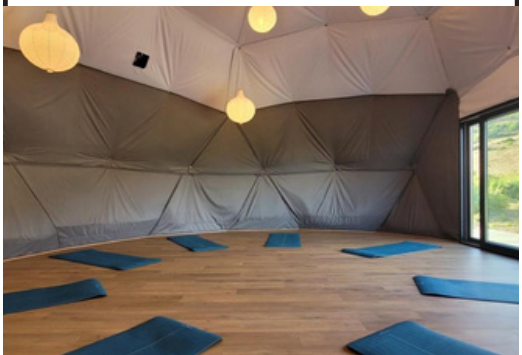

LIVE

- Year-round solutions for tourism and for permanent living
- High-quality structures with excellent thermal and acoustic performance
- Durable and resilient, designed for long-term residential use in any climate
- Can be equipped with our modular plug and play kitchen and bathroom units

PLAY

- Complementary solutions for leisure and event areas
- Structures for communal areas, event halls, leisure zones, retreats, playgrounds and partially covered outdoor spaces
- Solutions to enrich the glamping experience
- Ideal for hotels, schools, restaurants, amusement parks, and much more.
