

AUTENTIC

Inner Liner

PRODUCTS

INNER LINER

The inner liner is attached to the roof of your tent, creating a double layer along the inside.

DIVIDERS (BILLY-JOE DOUBLE BELL 7.2)

With the Billy-Joe, four curtains also come with the inner liner to easily create different rooms inside the tent.

MATERIALS

NATURAL HEMP

This earthy grey-beige sustainable fabric is known as one of the strongest and most durable of all natural textile fibres. It's naturally resistant to UV light, mould, and mildew.

BREATHABLE FIRE RETARDANT POLYESTER

This inherently flame retardant polyester fabric looks like a light cotton canvas but has the advantage of being fire-safe. The beige fabric adds a beautiful bright or a cosy warm look to your tent.

USE / ADVANTAGES

COSY FEELING

The inner liner creates a luxurious, warm and cosy feeling inside your bell tent.

AIR CUSHION

It provides an air cushion that helps regulate the temperature inside your tent.

NO STAINS FROM THE INSIDE

Small stains on the outside of the tent fabric become invisible on the inside thanks to the inner liner.

LESS FRAME VISIBLE

In the Billy-Joe Double Bell 7.2, the inner liner and 4 dividers (which come as a package) also have the advantage of hiding the metal frames of the center poles and 2 door-openings.

FEATURES AND DIMENSIONS
