AUTENTIC

Premium Glamping Tents

Create the most unique and luxurious glamping experiences with Autentic.

Autentic tents create unforgettable outdoor experiences that rival the comfort of a guestroom or a luxurious hotel suite.

Because that's what Autentic is about: providing authentic experiences and reconnecting you with the beauty of nature.

WHY CHOOSE AUTENTIC

AUTENTIC

OUR STRENGTHS

We at Autentic have redesigned and remastered the bell tent, seamlessly blending the finest performance, optimal functionality, and timeless beauty.

EASY SETUP

Set up in only 30 - 120 minutes, depending on the size of your tent.

WIND RESISTANCE

Up to 80 km/h for larger and 90 km/h for the smaller models.

FLEXIBLE SETUP

Possible to set up on grass or a wooden deck.

COLOR STABILITY

Our tent materials have optimized color stability. New and unique in the market: Wottex™ Pro, with color stability for at least 5 years..

ACCESSORIES

Tents can be customized with Inner Liners, multifunctional Window Panels, Short Guy Poles and various other tent accessories.

ULTIMATE VERSATILITY

Tents can be set up as a standalone unit or integrated into a larger project, including HVAC, sanitary facilities, and interior features.

TAILORED TO YOUR PROJECT

Based on your concept, requirements and the specific climate and location, our team will guide you in selecting the most suitable tent fabric from our range of high-quality tent fabrics, including 100% Cotton, Wottex™, Wottex™ FR, or Wottex™ Pro.

WATER RESISTANT

Exceptional water resistance, ensuring a dry and comfortable shelter.

MILDEW RESISTANT

Resistant to mildew when properly maintained.

UV RESISTANT

All fabrics are treated for UV color fastness, with Wottex™ Pro showcasing unmatched color fastness for at least 5 years.

FIRE RETARDANT

Autentic's Wottex™ FR fabric is treated to be fire retardant and certified to meet stringent FR-standards.

FABRIC OVERVIEW

	COTTON	WOTTEX™	WOTTEX™ FR	WOTTEX™ PRO

EXPECTED LIFETIME*	2 seasons on average	3 seasons on average	3 seasons on average	5 years or more : <ul style="list-style-type: none"> • Perfect color stability • No loss in fabric performance • Various cleaning options
RECOMMENDED USE	<ul style="list-style-type: none"> • Temporary use • Moderate climates 	<ul style="list-style-type: none"> • Temporary use • Moderate climates 	<ul style="list-style-type: none"> • Temporary use • Projects • Moderate climates 	<ul style="list-style-type: none"> • Projects • Longer time setups • All climates, including tropical and humid regions

All Autentic fabrics have undergone rigorous treatment and testing to ensure resistance to water, mold, and UV. The color stability of the tent fabric can be influenced by different factors, which can either accelerate or slow down color fading. These factors include sunlight exposure, radiation strength, setup location (whether on grass or near water), air pollution, and duration of setup.

More info on autentic.world.

* The expected lifetime is measured in professional seasons, each lasting 6 months.

WOTTEX™ PRO

Autentic stands alone as the exclusive supplier of glamping bell tents featuring premium acrylic fabric.

The Wottex™ Pro fabric has been carefully selected by Autentic and ensures exceptional performance in all climates, even the most hot and humid, while maintaining remarkable color stability. This fabric is easy to clean and maintain with Autentic's recommended cleaning products.

BELL TENT ADD-ONS

BELL TENT ADD-ONS

Tailored to meet your specific needs, these accessories are carefully designed to enhance your overall glamping experience.

INNER LINER

The Inner Liners are suspended from the roof along the inside of the tent, helping to regulate the temperature inside. Besides being functional, the Inner Liner creates a luxurious, warm and cozy feeling inside the tent. Inner Liners are available for the Jack Bell 5.2 and Jay Bell 4.4.

The Inner Liner for the Billy-Joe Double Bell 7.2 is attached with velcro to the walls, functioning as an Air Cushion and also comes with four Dividers, offering the flexibility to create multiple rooms as desired.

COLORS

WINDOW PANELS

Each Autentic Bell Tent is equipped with multiple windows featuring sturdy mosquito mesh. In the Billy-Joe Double Bell 7.2, Jack Bell 5.2 and Jay Bell 4.4, both the front and side windows can be easily unzipped and interchanged with different panel types, allowing for customization of the bell tent to suit individual preferences.

The technical panel allows for efficiently routing cables and other devices in and out the bell tent, the transparent panels let in extra light while still providing wind protection, and the fire-retardant stove panel will safely guide the stove's tube outside the tent.

SHORT GUY POLES

Our custom set of Short Guy Poles, crafted from natural wood, ensures a perfect tensioning of the bell tent while also minimizing the required space for setup. Thanks to their beautiful natural look, these Short Guy Poles add an additional touch of elegance to the bell tent.

The Short Guy Poles sets are available for the Jack Bell 5.2, Jay Bell 4.4, Billy-Joe Double Bell 7.2, Essential Bell 5.2 and Essential Bell 4.4.
